

Partial List of Sources for Board-Approved TRPP

The Board of Pharmacy has determined that the sources listed below can provide tamper-resistant prescription paper or pads that comply with state law. This is not a complete list.

Approved paper is widely available and not only from companies on this list. Companies not on this list may contract with the companies on this list to obtain the approved paper. This list is not an endorsement of the companies named. It merely identifies those companies who submitted their paper for approval and received authorization to apply the board's seal to the approved paper.

[Process for Review/Approval of TRPP](#)
